

# National Curriculum + Community Wishlist + Elton Extras = Our Elton Curriculum

**The Big Question**  
Our main topic focus for each term which is values & concepts driven

**Discrete subjects**  
Subjects taught discretely to ensure progression of skills and knowledge

A wish list based on a hypothetical ("no limit") scenario. Our whole community contributed to this and thought about what every child should have the opportunity to access and experience during their primary school days.

Opportunities that give children a rich cultural capital and help to create well-rounded individuals who are a positive force for good in their community.

Art  
Design Technology  
Geography  
History
