

My Homework Matters: Autumn 2023

My Environment Matters...

To create a functional object that could be useful for someone in the future made out of recycled item from today.

In order to survive in history people had to have respect for the natural resources around them. Can you think of a way to preserve and care for your local environment? You could investigate and see if there is a part of your community that needs a little extra care such as organising a local litter pick, creating a vegetable patch that caters for your family to save trips to the supermarket or perhaps writing a letter to your local MP about how to improve your natural environment for all those (young, old, disabled) that live in your community.

Elton Repair Shop- make, recycle or repair an item of clothing or toy/game to share with others

My Faith Matters...

Show why it is important to remember- be creative

Remembrance Sunday- 12th November

How can you be inspired by your class saint to make, create or do something to show their importance?

My Talents and Ideas Matter...

How could you use your talents to share your great ideas about our new topic? Remember - anything goes just so long as it related to our topic and it interests YOU!!

My Homework Matters!

Where is the past in the present?

Concepts: Change Community

Please complete 1 project to bring into school on December 14th for our Elton Showcase

My Learning Matters...

I complete my weekly home learning tasks

My Lifestyle Matters...

Time Capsule- We can learn so much about the people from the past and the type of lives they led by looking at the tools and paintings they left behind. What would you want the future generation to remember about us today? What would you leave behind? You could think of a creative way of leaving clues, objects or create a time capsule that tell the people of the future what life was like in the 21st century

Recipes from the past- can you find a recipe that has been handed down the generations that you could learn and continue into the future.

Other People Matter

With the cost of heating homes increasing every year the elderly are often left living in very cold conditions as they cannot afford to heat their homes with the modern day convenience of central heating. Homeless people also struggle to keep warm living on the streets. Are there any vulnerable people that you may know? Perhaps you could showcase your talents and knit or crochet a blanket that could be donated to people in need such as the homeless or the elderly? You could pair up with a group of friends to make squares that could be added together in a giant patchwork blanket.

How can you be more charitable within your community?

- Sweeping leaves/tidying gardens
 - Baking a cake
 - Offering to do a food shop
- Take photographs and show us what you have done

My World Matters

Transport- getting from place to place, how has it changed over time? Make/draw a model of an old-fashioned vehicle and compare it to vehicles of today.

Climate Change- The world is warming up- How will you combat climate change? What can you do to save our world for the future?

My Family Matters...

Family tree- can you create a family tree or a timeline of your family? Think of a creative way to present your work.

Interview your grandparents about what life was like when they were your age. What did they eat? What music did they listen to? What were their hobbies? What was the entertainment? How has life changed since they were a child?
