

My Homework Matters: Spring 2025

My Environment Matters...

Design and write a poster/video promoting the importance of saving water.

Find out how much water different appliances (such as washing machines or dishwashers) use. Compare the appliances and rank them in order of the amount of water used.

Explore how human activities impact water pollution.

Make your own rain gauge. Check it and record the rainfall daily. Use this data to create a graph showing the amount of rainfall in your area over a period of time, such as a month.

My Faith Matters...

The Bible has many stories that include water...
Make your own version/representation of the one of the stories (video/make a book etc)

What is the importance of water in other world faiths? Make, create or do something to show your findings.

Write a prayer for those who keep us safe in water/those who are in need of clean, fresh water.

My Talents and Ideas Matter...

- Research, learn and perform songs about water
- Dance inspired by water - video
- Write a poem about water
- Create your own water quiz using purple mash or an online quiz maker.
- Famous watercolour paintings/Famous paintings that depict water – recreate your own version

Remember – anything goes just so long as it related to our topic and it interests YOU!!

My Learning Matters...

I complete my weekly home learning tasks

My Lifestyle Matters...

How much water do you actually drink? Measure/record for a week – is it enough? Make an effort to drink the daily amount.

Take a walk/run/exercise at a local body of water, such as a lake, river or the sea. Sketch? Photograph?

Have you ever tried a sport that involves water? Swimming, paddle boarding, kayaking, sailing, raft building? Take pictures of you trying out this new activity.

My Homework Matters!

What is the worth of water?

Concepts: **ADVERSITY, STEWARDSHIP, SUSTAINABILITY**

Please complete 1 project to bring into school by

27th March for our showcase

Other People Matter

WaterAid is a charity- what can you find out about their work? Can you organise an event to raise money for this charity?

Make a 'model' of the water cycle which helps to explain how it works to somebody else.

Think about all the everyday jobs we do that use water. You could help a family member/neighbour in need with one of these jobs. Water the houseplants/ make a cup of tea/clean the bathroom etc

My World Matters

Investigate floods that have happened in our local area or around the world. Can you think of some ways that these floods could be prevented in the future? What is the impact of these floods on these communities?

Find out about the wettest /driest places on earth – Rainforests/deserts.

It's raining cats and dogs! Find out about the idioms for heavy rain from languages around the world and teach us all about it!

Famous 'waters' around the world – create a fact file or presentation.

My Family Matters...

Can you and your family save water? Create a water usage plan for your home to conserve water. Present your ideas and findings!

Design a water inspired game to play with your family and friends

Have any of your family members visited famous bodies of water in the UK or around the world?
